**WATER METER READINGS IN HAMPSTEAD** The Town of Hampstead also announced that "starting mid-August through September, trained personnel will be visiting each home to take a water meter reading. We ask that you please provide access to your water meter so that a proper reading may be taken. An actual reading is essential to ensure that your water consumption charge is accurate. Meter readings will be taken by representatives from 'Compteurs d'eau du Québec,' a firm contracted by the Town of Hampstead. Each meter reader will be wearing photo identification so that they are clearly identified. Should no one be at home, the meter reader will leave a calling card so that you may make an appointment for a reading at your convenience. In rare cases where water meters have malfunctioned, or if it is impossible to get an actual reading and estimate based on your average yearly consumption will be used to calculate your water tax bill. As required by municipal policy, it is your responsibility to ensure that meter readers can access your water meter, and that this access remains unobstructed at all times. Please ensure that your family members and/or daytime staff are informed so that water meter readings can be taken without undue delay."
